Fusion EasyBase Assembly Instructions

We've supplied everything you need to build your base!

- 4 Foursteel table legs
- 4 Aprons
- 8 Mounting bolts
- 8 Washer
- 4 corner blocks
- Allen (hex) wrench
- 1 Tabletop *For complete tables only

No other tools required!

1: **Lay out the aprons.** Assemble your base **upside down** on a smooth, flat surface that is larger than the table base you're building.

2: **Put Legs Together.** Mortise in the leg receiving tenon on apron

3: **Place Block & Bolts.** Using the supplied wrench, tighten each bolt until it stops turning and the handle begins to spring back. Repeat for each remaining leg.

4: **Attach Base.** Attach base to the table top with the supplied screws & predrilled holes

5: **All Done** Flip your table over and enjoy!

IMPORTANT: Keep this tool in a safe place!

You will need this if you ever need to remove the table legs or to tighten up the bolts should they loosen overtime.

We recommend taping this tool to the underside of your table for future use!
